About Us

Comprehensive Neurological Care Victoria (CNC Victoria) is the leading provider of private adult neurological care in the inner and north western suburbs of Melbourne. The highly experienced team at CNC Victoria consists of 4 Neurologists, 2 Neurosurgeons, a Neuropsychologist, and a Neurophysiology Scientist and is constantly expanding. These specialist services are complimented by Neurophysiology diagnostic testing; EEG (Electroencephalography), NCS (Nerve Conduction Studies) and EMG (Electromyography).

Developed with a goal to provide easy access, plenty of parking and reduced average wait times, we strive to provide a comprehensive service under one roof to provide convenience and simplicity to our patients. CNC Victoria provide care of the highest standard via specialist consultations and diagnostic testing facilities.

We pride ourselves on comprehensive, patient centred care and provide treatment for a wide range of neurological, muscle and nerve disorders.

The doctors at CNC Victoria are happy to see patients with work cover and TAC.

Our Specialists have public hospital attachments in the region, including the Royal Melbourne Hospital and the Western General Hospital. Our specialists also have admitting rights to all the major private hospitals in the area, including John Fawcner Private Hospital, Brunswick Private Hospital and Melbourne Private Hospital. This allows us to provide seamless outpatient and inpatient services.
